

INSPIRING TECHNICAL CAREERS

Online Learning Resources

In this document you will find a range of online learning resources that will aid all learners over the period of school closure.

Office 365 / Microsoft Teams

All students at UTC Warrington have access to Office 365 and an online suite of Microsoft products, including Word, Powerpoint and Teams. All students can access this from a laptop or PC. During the closure, it is expected that students and staff will log in to transition to online remote teaching and learning.

Classes have been set up on Microsoft Teams so that assignments can be set, completed and marked in real time. Resources and guidance for learning will be available through Teams. Our staff will be accessible via email and this can be accessed via Office 365. Subjects have also moved key resources, tools and documents onto Office 365 so that all resources can be accessed from home.

To access Office 365, please do the following:

1. Access www.office.com on your computer/laptop
2. Click sign in
3. Username and password are the student log in for accessing computers at the UTC
4. Click the Teams icon to access subject groups

Seneca Online Learning

Some subjects, including geography, computer science and maths are using Seneca online revision tools. Students have log ins for accessing these resources. If students can't remember passwords they must reset them by using the email they set up or they can create a new account and join the class using the below codes.
