

# Newsletter 20th November 2020

This week we have been running our first Virtual Open Events showcasing each of our specialist pathways. I am delighted to say that it's been a great success and we have had really good feedback. A big thank you to our employer partners UKRI, Stantec, Fujitsu and The Bridgewater Community Healthcare NHS Foundation Trust for presenting at our events and talking about their work with us.

I would also like to thank our alumni students who shared their experiences with us:

- George Garner, now an Apprentice at Cavendish Nuclear
- Chris Hankey, now doing a degree in Civil Engineering at the University of Exeter
- Ben Danby, now doing a degree in Computer Science at the University of Edinburgh
- Dylan Bamber now working for West Midlands Ambulance Service

We are extremely proud of our track record in helping students move on to positive destinations pursuing their ambitions. You can see short films of each of our specialist pathways below, together with recordings of our Showcase Events. We hope you enjoy.

Amanda Downing, Associate Principal
