

HEALTH CARE & SCIENCE

pathway at UTC Warrington

Are you curious about how the human body works? Do you want to work in a caring profession and make a difference? Our Health Care & Science pathway could be the right choice for you! Watch our Health Care showcase video to find out more about this exciting pathway.

Choose a purely vocational pathway or a combination of BTEC and A Levels for apprenticeship or university routes.

Part of your learning will involve real-life challenges set by healthcare employers that will stretch you and build your industry skills.

Cover an exciting range of topics including:

- Working Health and Social Care
- Human Lifespan Development
- Anatomy and Physiology
- Biomedical Science and many more!

Want to find out more?

Virtually meet our Health Care & Science Faculty Leader, Dan Twist, on Thursday 18th March... register your place!
